A special from Arkalona, Kan., says everything is in a high fever of excitement this morning over the atroctous murder of Sheriff Dunn yesterday. Judge Botkins spent the night here and is in town this orning arranging to go to Springfield to General Stanley at San Antonio open court. Adjutant General Roberts with United States troops will arrive here to-day at 2:80 and will at once proceed to Springfield to vigorously push matters bringing the murderers of the mob to justice. A body of armod citizens will accompany Judge Botkins to his court, and there is no telling what the result will be. Waris no telling what the result will be. War-rants are now out for the arrest of thirty men and troubulous times are expected. Deputy Sherif Larabee is now in posses-sion of warrants and will begin the work of making arrests to-day.

The Situation at the Scene of Operations

Forty as determined and desperate men as can be found on the border, and behind the wall of the courthouse at Springfield, and forty soldiers as determined to dislodge them and bring them to justice are outside. A number more soldiers, who are guarding three of the murderous mob arrested to-day, are under orders to shoot them before sur-rendering them to their companions in crime, who will probably endeavor to release them before day dawns. Still more soldiers are guarding the house of Judge Hotkin from an attack of his enemies bent upon taking his life. Such is the situation to-night at the scene of the atrocious killing of Sheriff Dunn

At 9.45 o'clock to-day Adjutant John Roberts reached here with troops under command of Colonel Ricksecker of Steripart on anyside.

At Minola word was received the Woods-dale people had taken possession of the court house at Springfield and Judge Botkin was at Arkalon waiting reinforcements to help nim open court. AMERICANIZED.

That is the title the publishers have given the work just issued from the press under the name of the Ameri-

canized Encyclopædia Britannica. The Americanized is based on the original and ninth edition of that world-famed work, the Encyclopedia Britannica. The points of difference in the two works are: First, the Engglish edition, published all the way from five to twenty years ago, has become out of date. The Americanized Encyclopædia Britannica has brought every subject treated of in the original work down to date, making it of mora practical use to the American reader who is interested in American subjects, than the English work itself, which, being compiled by Englishmen for the use of Englishmen, neglected American subjects, and in a great many

cases did not mention them at all. Second-The English edition does not mention the name of any living person, no matter how noted they are. The Americanized Encyclopredia Britannica more than makes this omission good by adding nearly 4,000 new biographies of living men and women; also including those recently deceased, whose names will be

handed down in history. To illustrate the difference, the English edition devotes over six columns to an English county, and but three-quarters of a column to an American State. The Americanized Encyclopædia Britannica reverses this order by giving the six columns of space to the American State and the three-fourths of a column to the

English county. You are more interested about American matters than you are about English, aren't you? Well, if you look up the English edition you will flud an exhaustive treatise on Birmingham, England, and when you look for Birmingham, Alabama, an American city of over 40,000 population, the English edition doesn't even mention

Well, it seems that the Encyclos pædia Britannica should be AMER-ICANIMED! And that is just when the publishers have done. They have taken the Encyclopædia Britannica ic pieces, as it were, and remodeled it for the American reader, the whole work being brought down to date. Now, you know enough about the

Americanized Encyclopædia Britan-

nica to know if you want further information. If so, call at our office and examine the work. Meanwhile, read our proposition. If you think favorably of it, place your subscription to our paper and obtain this valuable work of reference on the following easy terms:
